

The City Centre West to East Link project

Queensferry Street junction and Randolph Place

We wanted to update you on our works planned for Queensferry Street and Randolph Place. The works on Randolph Place will now start on week commencing 9 January. This is to reduce the impact on residents and businesses over the festive season. Our works on Queensferry Street will start in the Spring to help co-ordination with other citywide major schemes and reduce congestion.

The programme for our works is outlined in the attached sheet.

Working with you to minimise disruption

We will work with businesses and residents to address any concerns you may have. Our site manager will consult with businesses during the construction period. This will give us a better understanding of what we can do to help limit disruption, for example we can carry out slabbing in front of businesses at suitable times to maintain access during opening hours.

Cellar and frontage surveys

Before we start work we will carry out a cellar and frontage survey of each property around our work area. A photographic record will be shared with each owner. The site engineering team will contact you on or thereafter the 9th January to carry out these surveys.

Business and Community Forum, Section Two, 9 January at 6.30 (online via Teams)

We're pleased to invite you or a representative from your organisation to an online meeting about Section Two of the CCWEL project. To register for the meeting please visit our Eventbrite page: **tinyurl.com/2cwz9ran**

Further information and keeping in touch

Keep up to date with the project **www.edinburgh.gov.uk/ccwel -** which also has information such as construction designs, consultation report and planned traffic management.

#Edintravel has all the latest traffic management and disruption information.

Queries about the project, please email the City of Edinburgh Council

• ccwel@edinburgh.gov.uk

For any urgent queries about the construction, you can speak to the team on site

or contact Balfour Beatty
