

1. Street Trading Policy

The aim of the Street Trading policy is to grant a licence to traders:

- 1.1 Where the location is acceptable in respect of planning, transportation and safety;
- 1.2 In low amenity areas such as industrial estates; and
- 1.3 Within the curtilage of business premises where their presence is visually acceptable and will not result in an adverse effect on traffic movement or safety.

However, it is recognised that this may be difficult to achieve in areas within the city centre due to high pedestrian flow and lack of identifiable sites.

2. City Centre and Areas of Special Interest

Unless the Council makes a specific exemption to the policy it is highly unlikely that street trading or market operator licences will be granted in the following circumstances:

- 2.1 In streets that have a significant formal layout and plan form, which would be undermined by the presence of additional items in the street. These include the New Town, and in particular George Street.
- 2.2 Within the World Heritage Site, conservation areas and areas of important landscape value, the use of portacabins or other large units of similar scale e.g. metal containers used for freight, are not considered suitable in these locations.
- 2.3 Within the setting of certain historic buildings or places which are internationally significant, including in particular HM General Register House, the Royal Scottish Academy and National Gallery, Parliament Square, St Giles Cathedral and the Signet Library. These areas should be retained as open space.
- 2.4 Where key views are likely to be adversely affected by the presence of street trading stances.
- 2.5 At important gateways to the city. This will include the approach to, and roundabout at, Edinburgh Airport and principal traffic routes in the centre of the city
- 2.6 Within certain areas not regarded by the Council as suitable for street trading or market operations except in exceptional circumstances. Longstanding factors that would make a location unsuitable include areas of high pedestrian footfall, narrow footways and busy arterial routes. It is proposed that streets affected by this should include:
 - 2.6.1. Princes Street;
 - 2.6.2. The Lawnmarket / Parliament Square
 - 2.6.3. George IV Bridge;
 - 2.6.4. Lothian Road
 - 2.6.5. North Bridge
 - 2.6.6. South Bridge
 - 2.6.7. Lothian Road
 - 2.6.8. St Giles Street

2.6.9. Waverley Bridge

2.7 Within certain high-profile areas where all suitable locations are current being heavily utilised:

2.7.1. Castle Street;

2.7.2. Rose Street;

2.7.3. Grassmarket;

2.7.4. Mound Precinct;

2.7.5. Playfair Steps; and

2.7.6. The Meadows.

It is proposed that no further licences are granted in these areas, however if in the future a suitable location becomes available this can be reviewed.

2.8 Any additional licences in the vicinity of the main sporting stadiums at Tynecastle, Easter Road, Meadowbank and Murrayfield. These locations are already well served by existing Street Trader's Licences and additional licences would only be granted when an existing location becomes available.

3. Mobile Zones

3.1 Street trading mobile zones were first introduced in the city in 1984 following a number of complaints about the number of mobile traders operating in one area. The zones were based largely on the residential population and popular street trading locations at the time. The zones were revisited as part of the policy review in 2004 and re-adopted.

3.2 While the zones were introduced to control the sale of ice cream from vehicles, they are now utilised for all mobile street trading activity. The purpose of mobile trading zones is to control and manage areas in which traders can operate. The current system restricts city wide trading and limits numbers to ensure balance for local communities and existing commercial activity.

3.3 The specified zones in which street traders are permitted to trade are included in Appendix A to this policy. Princes Street, George Street, Rose Street, the Mound Precinct and the Royal Mile were excluded from the trading zones as being unsuitable for this type of activity. A street trader will not be licensed for more than two zones at any one time

4. High Street/Hunter Square Trading

4.1 Street trading in the High Street and Hunter Square is intended to be temporary in nature and given demand for space traders should not expect to be consistently trading on the High Street.

4.2 Given the historic nature and prominence of the High Street and Hunter Square, neither location is considered suitable for the sale of hot and cold food, although this may be relaxed in Hunter Square during the month of August.

4.3 The High Street is one of the main Fringe locations. During August both the High Street and Hunter Square are considered event spaces and normal trading may be suspended during this period.

- 4.4 Trading at these locations may also be suspended for events in the area i.e. Royal visits, Armistice day services, parades and processions etc.
- 4.5 Stances in the High Street and Hunter Square will be subject to the following criteria:
- 4.5.1. Stances will be allocated on a weekly basis (Monday – Sunday);
 - 4.5.2. Trading hours will not exceed 10:00 – 20:00hrs daily;
 - 4.5.3. Multiple applications by individuals linked to one business will not be accepted and will be returned;
 - 4.5.4. Traders will be required to indicate whether or not they are the sole trader and if they intend to apply for employee licences;
 - 4.5.5. Traders will display, in a prominent position, so that it may easily be read by customers or suppliers, a notice containing the name of the trader and/or business and details of their trading address;
 - 4.5.6. A separate licence application will be required for each date applied for. The practice of adding multiple dates to one application will not be accepted;
 - 4.5.7. A separate licence application will be required for each location applied for i.e. Hunter Square / High Street. The practice of naming specific stances will no longer be accepted;
 - 4.5.8. The relevant application fee is submitted at time of application;
 - 4.5.9. Applicant will provide the following information/documentation:
 - name of business and/or trader;
 - details of the stall to be used, including dimensions (not to exceed 8ft in length);
 - wind management plan (it is no longer appropriate to produce a generic wind management plan the plan must reflect the actual stall);
 - type of goods sold;
 - public liability insurance;
 - tax reference of the business/trader;
 - photograph of proposed stall;
 - type of goods sold (which will then be detailed on the licence);
 - a copy of public liability insurance including cover for employees where appropriate.

5. Mound Precinct and Playfair steps

- 5.1 The area at the bottom of Playfair Steps to its junction with the south side of Mound Precinct has accommodated street trading for a number of years. Initially street trading at this location was intended to have utilised just the railings, but in more recent years this has expanded to include market type stalls.
- 5.2 Annual trading stances are restricted to:
- 5.2.1. Two within the Mound Precinct: stance 1 on the East side of the Mound Precinct, 25 feet from Princes Street, and stance 2 on the west side of the Mound Precinct, 25 feet from Princes Street

5.2.2. 13 Stances on Playfair Steps

6. Licensing Criteria

All licence applications will be subject to the following criteria:

- 6.1 In general, the issuing of licences will be limited to areas of retail, business and entertainment activity e.g. retail parks and industrial estates. Street traders/market operators shall not be permitted in streets that are predominantly residential:
- 6.2 Street traders must not obstruct or restrict pedestrian or vehicular traffic or cause a danger to road users.
- 6.3 Street traders/market operators must obtain all necessary and appropriate consents prior to making an application, and in particular the consent of the owners of any land on which a stance is to be situated or which is adjacent to any stance. The grant of a licence does not imply that the owner has consented or that there is a right to occupy the space
- 6.4 The precise location of the proposed stance must be marked on an Ordnance Survey Map with a box and a distance in metres given to the nearest junction. The location of the stance should be clearly described:
 - 6.4.1. The precise location of the proposed stance must be marked on an Ordnance Survey Map with a box and a distance in metres given to the nearest junction. The location of the stance should be clearly described, giving:
 - the name of the street;
 - the side of the street (e.g. north, south etc);
 - the name of the nearest side street; and
 - the distance in metres from the nearest side street.
- 6.5 all street trading stances and markets will be mapped to clearly identify locations
- 6.6 Stances will be clearly delineated. This may be achieved by placing brass studs or wind management anchors in the pavement where the Council directs
- 6.7 Street trading/market operations and the stalls, kiosks, vehicles or mobile units associated with these shall only occupy a stance during trading hours
- 6.8 At the end of trading hours the licence holder shall promptly remove and take away any stall, kiosk, mobile unit or vehicle and all other ancillary equipment placed on or in the vicinity of the trading stance
- 6.9 Street trading is considered to be of a temporary nature and traders shall not be allowed to permanently occupy any stance. Licences will be granted on either a temporary or annual basis dependant on location
- 6.10 Stances sited on the footway should normally be located outwith pedestrian desire lines, for example at suitable recesses
- 6.11 Where a high density of annual Street Trader's Licences already exists, further licences will only be considered where there is significant additional space identified to accommodate them
- 6.12 Consideration will be given to how any stall or trading unit will be set up at the specified location. Driving over a public pavement will not be allowed and

another means of placing a unit will be required. This will include any deliveries to or servicing of any unit, stance or stall

- 6.13 When locating street trading stances, consideration should be given to access to street furniture by utilities and other owners of cabinets, manholes and access covers etc. A trader shall move when asked to do so by an owner or their representative wishing to access their apparatus
- 6.14 Maintaining the integrity of the paved surfaces, roads and pavements is important for the future maintenance of the streets being utilised. It is therefore vital that every effort is made by a licence holder to protect the road and pavement surfaces from damage caused by either placing or removing a unit or stall. Protection should also be given from any footings or stabilisers while the unit/stall is in place
- 6.15 Amenity areas may have to be shared by street trading activities and tables and chairs being used by adjoining properties as part of the café culture within the city. In these circumstances agreements need to be reached with the relevant service departments prior to the grant of a licence
- 6.16 Planning permission is required for open air markets if the land is used for this purpose for more than 28 days in a year. This is not 28 days per market operator, as any permissions go with the land not the applicant. It is the responsibility of the person using the land for open air market operations to obtain planning permission for this purpose
- 6.17 A Street Trader's Licence is required for street trading by a person whether, on their own account or as an employee
- 6.18 Employee licences will be issued to provide assistance to the actual licensed traders, but not for the purposes of operating the business on behalf of someone else.

7. Duration of Licence

- 7.1 A licence granted under the Civic Government (Scotland) Act 1982 can be issued for a period of no more than three years, or shorter period if the Council decides. Both Street Trader's and Market Operator's licences will be limited to a period of one year. Once an annual licence has been granted this will prevent another licence being issued for the same location and trading hours.
- 7.2 Temporary licences can be issued for a period of no more than six weeks, or a shorter period if the Council so decides, and are mainly used in connection with public entertainment or an event. Temporary licences will be limited to a period of 28 days. The main exception to this is street trading in the High Street and/or Hunter Square, where licences are allocated on a weekly basis due to the high volume of demand for stances.
- 7.3 Temporary licences for street trading, not linked to public entertainment or an event, will be for a maximum period of seven days
- 7.4 In circumstances where the demand is far greater than the actual number of temporary stances available, allocation will be by way of a ballot system. This would apply to areas such as the High Street and Hunter Square

7.5 The issue of an annual Market Operator's licence or Street Trader's Licence could prevent other licences from being granted for the same location and hours of operation. To prevent an annual licence from restricting other trading opportunities in public realm space, it is proposed that an annual Market Operator's licence should only be considered in cases where the operator's trade is at a frequency of at least once per calendar month, and those dates should be clearly identified on the licence

8. Hours of Operation

- 8.1 Street trader and/or market operator trading hours will normally be considered to operate between the hours of 10:00 – 20:00hrs daily.
- 8.2 Between April and October street traders will be expected to trade between 10am – 4.30pm (or other agreed hours). This should be considered as a minimum trading period
- 8.3 There will be a presumption against street traders selling food between 23:00hrs and 5:00hrs except in exceptional circumstances at the discretion of the Licensing Sub Committee.
- 8.4 Licence holders wishing to trade between 23:00hrs and 5:00hrs will also require a Late Hours Catering Licence. A Late Hours Catering Exemption certificate can also be granted for a period of up to two months to allow trading on a temporary basis
