

Equality and Rights Impact Assessment

2015-2018 Budget Summary Report

What budget option does this ERIA information relate to?

The budgeted increase in income 'revenue' from Trade Waste Services

This will be done by;

- Proactively selling Trade waste services to businesses across the city.
- Introducing new innovative services to meet changing market demands
- Increasing compliance with Waste (Scotland) regulation 2012
- Increasing compliance with local city Time Windows.

What are the main impacts of this option on rights?

Enhance the right to health, life and standard of living due to the reduction of waste contaminating land and streets surrounding residential and commuter areas. This will reduce the likelihood of health outbreaks and improve the aesthetics of the area.

What are the main impacts of this option on equality?

Enhancing the quality of opportunity to access our services

What are the main recommendations to address either the positive or negative impacts?

Due to the diversity of the commercial property owners in Edinburgh and to ensure equality of opportunity to engage in the service, robust communications strategy which meets the needs of proprietors whose first language is not English will be established.
