

Equality and Rights Impact Assessment

2015-2018 Budget Summary Report

What budget option does this ERIA information relate to?

CF16: Service wide reductions to grant and contract funding for 3rd parties

What are the main impacts of this option on rights?

The budget proposal is an overall target for the service area and all elements of implementation of savings greater than 3.3% will be discussed with the provider to avoid any infringement of rights. All changes to current funding arrangements will take cognisance of relevant legislation.

What are the main impacts of this option on equality?

Consideration will be given – in consultation with the existing providers – to any disproportionate impact on any equalities group during the discussions about potential reductions to avoid this occurring. None is currently envisaged.

What are the main recommendations to address either the positive or negative impacts?

Negative impacts on equalities or rights of any proposed reduction of spend on grants or contracts will be considered at the time of proposal and discussed with the service provider. The intention will be to ensure that levels of support to service users are maintained or delivered in alternative ways and to minimise negative impact on any equalities group where possible,. This will vary across the range of current providers and agreed mitigating actions will be specific to the user group in question.
