

**Proposed Edinburgh Local Development Plan Examination
Report to City of Edinburgh Council – 30 June 2016
Recommendations by Issue Number**

ISSUE	REPORTER'S RECOMMENDATION	REPORT PAGE NO
01 - Introduction and Aims and Strategy	<p>Modify the proposed plan as follows:</p> <ol style="list-style-type: none"> 1. Change all references to National Planning Framework 2 (paragraphs 48, 58 and the glossary) to read National Planning Framework 3. In paragraph 58 third sentence amend to read: Strategic enhancement of Edinburgh Airport has the status of a national development along with associated provision for business space/mixed use and a new National Showground Facility. In this context the plan identifies land for the expansion of Edinburgh Airport, proposals for business and mixed use at the International Business Gateway and a safeguarded site to the south of the A8 for a new National Showground Facility. 2. Amend the glossary definition of sustainable development to read: Sustainable Development: Development that meets the needs of the present without compromising the ability of future generations to meet their own needs. 3. Amend the map Figures 1 and 14 to include revision to the areas shown in South East Edinburgh in accordance with the recommendations in Issue 14. 	3
02 - Green Belt and Special Landscape Areas	<p>Modify the proposed plan as follows:</p> <ol style="list-style-type: none"> 1. Amend the green belt on the proposals map and as relevant elsewhere in the plan to take account of the recommendations as set out in Issues 14, 15 and 16. 	15

03 - Other Environmental Designations	<p>Modify the proposed plan as follows:</p> <ol style="list-style-type: none"> 1. <u>Part 1 Section 2 – A Plan to Protect and Enhance the Environment (Page 10)</u> <ul style="list-style-type: none"> • Amend the heading “The Old and New Towns of Edinburgh World Heritage Site” to “World Heritage Sites”. • Amend paragraph 23 as follows: Two of Edinburgh’s most widely acclaimed assets is are its World Heritage Sites. World Heritage Sites are places of outstanding universal value, recognised under the terms of the 1972 UNESCO Convention concerning the Protection of the World Cultural and Natural Heritage. The ‘Old and New Towns of Edinburgh’ became a World Heritage Site in 1995, and the ‘Forth Bridge’ became a World Heritage Site in 2015. The boundaries are shown in Figure 3 and Figure X. • Edinburgh’s World Heritage Site Management Plans have been prepared by a partnership of the Council, Historic Scotland and Edinburgh World Heritage. They provide a link between the international requirement of World Heritage, the planning process and the wider management issues involved in protecting complex sites in Edinburgh. The Management Plans inform separate Action Plans and may be a material consideration for decisions on planning matters • Include a new numbered figure (X) within the text in the same style as Figure 3 illustrating the extent of the Forth Bridge World Heritage Site in its entirety. 2. <u>Part 2 Section 3 – Caring for the Environment (Page 86)</u> <ul style="list-style-type: none"> • Amend name of Policy Env 1 ‘Old and New Towns World Heritage Site’ to read: 	42

ISSUE	REPORTER'S RECOMMENDATION	REPORT PAGE NO
<p>04 - Economic Development and Shopping/Leisure Proposals</p>	<p>Modify the proposed plan as follows:</p> <ol style="list-style-type: none"> 1. Paragraph 56 – amend the final sentence as follows: The LDP supports existing businesses, makes specific provision for a growing student population, continues to promote previously identified economic proposals and highlights new investment opportunities. 2. Edinburgh BioQuarter Development Principles – add bullet point as follows: The BioQuarter may require to contribute to improvements to the A720 Sheriffhall junction improvements. 3. Table 2 – Edinburgh BioQuarter – amend the second sentence under main purpose as follows: Its development is being promoted by a partnership of the Council and Scottish Enterprise, University of Edinburgh and NHS Lothian. 4. Proposals Map – amend the boundary of Policy Emp 5 by excluding the area to the east of Ingliston Road and north of Fairview Road, and exclude the omitted area from the special economic area designation. The area should have no specific designation on the proposals map. 5. Table 2 – International Business Gateway - add after the first sentence (as amended): 	<p style="text-align: center;">73</p>

Recommendations by Issue Number**

ISSUE	REPORTER'S RECOMMENDATION	REPORT PAGE NO
	Amend the addresses under Marchmont South to: 126 to146 Marchmont Road.	
05 - Housing and Community Facilities General	<p>1. For consistency with West Edinburgh and South East Edinburgh add new sentence at the end of paragraph 119: "All proposals will be required to make appropriate contributions to new and improved infrastructure as detailed in Part 2 section 1 of the proposed plan."</p> <p>2. Delete paragraph 63-65 and replace with:</p> <p>63. The rate at which housing sites are developed is constrained by a variety of factors including market conditions. SESplan accepts that the required housing targets will be challenging to deliver. It stresses the importance of ensuring growth is accompanied by the appropriate infrastructure. It also requires greenbelt release to be minimised. Current programming assumptions are subject to consultation with the house-building industry and are monitored and updated through an annual housing land audit.</p> <p>64. Figure 7 shows the current programming assumptions (drawing on the 2015 housing land audit) for existing sites and new sites as identified through this plan. Alternate figures presented by the house-building industry assume a more significant on-going shortfall extending over the plan period and beyond. There has been a recent increase in completions and the council considers it has identified land with sufficient total capacity overall. However, table 7 signals a shortfall in the effective housing supply to 2019 and potential on-going difficulties in maintaining a 5 year land supply.</p> <p>Replace Figure 7 as below:</p>	101

	<p>66. The council has a clear role in working with developers and other agencies to ensure that there are no land use planning barriers to an increased take up of its identified stock of housing land. This will be facilitated through Supplementary Guidance to set out a realistic approach to enabling infrastructure provision taking into account financial viability and looking at innovative approaches to forward and gap funding. This will be particularly important if the considerable potential of the water-front is to be realised.</p> <p>67. It may take time for any increase in the uptake of the identified land supply and this may create pressure for the release of additional land through Policy Hou 1. However any shortfall in the housing land supply, whilst carrying considerable weight, does not over-ride other considerations such as directing development to sustainable locations, securing green belt objectives and the appropriate provision of infrastructure.</p> <p>68. The current housing target is based on a ten year period and the development plan is to be reviewed every five years. The process of preparing a new SESplan is already underway and the plan will be due for replacement in 2018. An early review of this local development plan is proposed in order to ensure a timeous response to any revised strategic housing target and to secure an ongoing and sufficient supply of housing land.</p> <p><i>Note: Other relevant recommendations include: a new Policy Hou 1 (Issue 23), revision to the developer contributions policy Del 1 (Issue 21), inclusion of General Principles for transport and schools provisions within specific development areas (Issue 21) and a new policy to address cumulative and cross boundary transport matters Trans X (Issue 19)</i></p>

	<p>5. Proposal T12 – change the second sentence to read:</p> <p>Improvements to provide public transport priority and capacity improvements on the approach roads.</p> <p>6. Proposal T8 – delete the proposed cycleway/footpath at Gilmerton Road from the proposals map.</p> <p>7. Paragraph 85 – insert a new sentence after ... both as a means of transport and pleasure in line 4:</p> <p>This takes into account the need to provide for people with limited mobility.</p> <p>8. Proposal T5 – insert an additional sentence at the end of the existing text as follows:</p> <p>The environmental effects of the proposed orbital bus route, including the loss of any green belt, will be fully considered through the development management process.</p> <p>9. Proposal T1 – amend the text as follows:</p> <p>The first phase of the tram line has now been completed and is operational. The plan safeguards long term extensions to the network connecting with the waterfront, to the south east and Newbridge.</p> <p>10. Proposals map:</p>

Recommendations by Issue Number**

ISSUE	REPORTER'S RECOMMENDATION	REPORT PAGE NO
	<p>Forth Ports Ltd has decided to retain land at the Britannia Quay and south of Edinburgh Dock in port related use, and therefore a modified approach to the development of this area from what is included in the Leith Docks Development Framework (2005) is required. The bullet points below within the development principles remain applicable, but the development framework will be reviewed in order to provide a revised approach to the development of the area, including a revised diagram representing this approach. The feasibility and route of the east-west cycle path shown on the proposals map will be further considered within the review of the development framework.</p> <p>10. Proposal EW 1b – delete the first bullet point of the development principles.</p> <p>11. Proposal EW 1b – diagram – delete the notation of housing led mixed use development from the land within the ownership of Forth Ports Ltd, constituting 5 blocks in the Britannia Quay and 3 blocks south of Edinburgh Dock, except for the western part of the westernmost block which is outwith the ownership of Forth Ports Ltd.</p> <p>12. Proposals map – delete the area of Proposal GS 3 extending into the business premises on the south side of Salamander Street. The southern boundary of these properties should be the northern boundary of Proposal GS 3.</p> <p>13. Proposals EW 2a, EW 2b and EW 2c – amend the third bullet point of the first two proposals and the second bullet point of the third proposal within the development principles as follows:</p> <p>provide a housing mix that is appropriate to the site in terms of placemaking and would maximise completions within this urban regeneration proposal within the plan period</p>

	<p>Business Gateway is a key location to attract international markets and secure appropriate business led mixed use development. It will come forward in a series of phases incorporating business development and supporting uses. The supporting uses include an opportunity for housing development as identified in Table 4. The Development Principles in Part 1 Section 5 identify the requirements for the consideration of proposals for the IBG through the development management process, indicating how business development and other uses can be accommodated together.</p> <p>28. Table 4 – add the following to the estimated number of houses: to be confirmed through the masterplan process. Amend the comments as follows:</p> <p>An opportunity for housing development as a component of business-led mixed use proposals is identified. However this is subject to further consideration through the masterplan process in terms of the extent that this would contribute to place making and sustainable development objectives and to the primary role of the site in supporting strategic airport enhancement and international business development. The continuing masterplan process for the IBG will demonstrate the relative balance of uses that would be appropriate. The development principles in Part 1 Section 5 identify the requirements for the consideration of proposals for the IBG through the development management process. Proposals must also accord with the provisions of Policy Emp 6.</p> <p>29. Policy Emp 6 – amend the final bullet point as follows:</p> <p>Housing as a component of a business led mixed use proposal subject to further consideration through the masterplan process, appropriate infrastructure provision and where consistent with the objectives of the National Planning Framework.</p>

	<p>6. Replace paragraphs 100-101 as follows:</p> <p>100. The timeous delivery of this infrastructure to address the individual and cumulative impacts of development is an important consideration. Policy Del 1 sets out a policy requirement to ensure that appropriate developer contributions are sought to enable this delivery at the appropriate time. Part of this approach will include the establishment of cumulative contribution zones.</p> <p>101. In these zones contributions will be sought to address the impact of a number of sites within areas defined relative to schools, transport infrastructure, public realm and green space requirements. These will be based on the transport and education appraisals and the Open Space Strategy carried out by the Council during the plan preparation process. The relative zones will be mapped and defined through Supplementary Guidance. The geographical extent of a contribution zones relates to the type and nature of the action in relation to transport, education, public realm and green space.</p> <p>102. Developer contributions must be proportionate and attributable to the impacts of the development. They also have to be realistic in light of current economic circumstances otherwise they may impede development. This is particularly important given the emphasis placed on securing the required uplift in housing completions. In this context mechanisms for forward and gap funding may also have to be considered.</p> <p>103. To address the detail of these matters within the development plan statutory Supplementary Guidance is to be prepared. This should enable a clear</p>

	<p>** This guidance should be submitted to Ministers within one year from the date of adoption of this plan. In the event that timing of the findings of the Cumulative Impact Transport and Land Use Appraisal Working Group would delay inclusion of details on cross boundary issues an interim approach will be detailed through the Supplementary Guidance to be confirmed through the replacement development plan.</p> <p>8. Rename the section on Action Programme Contributions as Developer Contributions, amend paragraphs 127-130 as follows and delete the separate heading of "Other Contributions"</p> <p>127. Anticipated transport and schools requirements relative to specific areas (General Development Principles) and sites (Development Principles) are set out in Part 1 section 5 of the plan. Appendix Y details the provisions for which contributions would be sought. These include:</p> <ul style="list-style-type: none"> • School capacity increases including new schools • Traffic management and other transport improvements to address the individual and cumulative impact of proposed development including on the Trunk Road Network. • Green Space Actions <p>128. The council has already forward funded the completed section of the tram network and contributions will continue to be sought from future development which impacts on or creates a need for this infrastructure. This approach to developer contributions may apply to other items of required infrastructure such as schools</p>

	<p>where advance provision is necessary to enable the development strategy.</p> <p>129. Further detail of anticipated requirements and the approach to delivery including the use of cumulative contributions zones, a framework for consideration of financial viability issues and possible approaches to forward and gap funding will be set out through the Supplementary Guidance as referenced in Policy Del 1.</p> <p>130. An action programme will then be rolled forward annually to monitor timescales and identify the need for further action and the parties responsible.</p> <p>131. The council recognises that the scale of proposed development may also impact on other infrastructure including health and community facilities. Policy Hou 10 is relevant in this respect. However there is a current lack of information on the scale of such requirements and how they should be addressed. Whilst it may be appropriate to seek contributions for such provision any requirement would need to be considered on a case by case basis where a clear justification can be provided in the context of Circular 3/2012. The feasibility of including such additional contributions and the impact on development viability would also have to be assessed.</p> <p>9. Delete Policy Del 2 and supporting text in paragraph 131.</p> <p>10. Add an additional table, Appendix Y, as follows:</p> <p>Appendix Y Infrastructure Items for which financial or other contributions may be sought</p>
