Choice 12 BX

Do you support or object to any of the proposed greenfield areas? (Please tick all that apply) - Explain why

Short Response: Not Answered

Explanation
Murray Estates do not object to any of the proposed potential greenfield allocations. Murray Estates have made a separate submission to the MIR in respect to the area of land named by the Council as East of Millburn Tower. The Council supports the development of the EoMT site for residential led development by way of its 'minded to grant' decision for the planning application, which is currently subject to a 'Call-In' procedure. The Scottish Government has indicated that a decision on the application is imminent. Should the application be granted, Murray Estates is recommending the allocation for residential development of a further area of land to the south of the EoMT site, as shown on the plan submitted in response to Q12C. The Council will be aware that through the consideration of the EoMT application, there are proposals to provide a footpath and cycleway through this site which will assist in integrating the EoMT development with existing active travel routes in the vicinity. In this context, and reflecting on Murray Estates' submission to the MIR explaining that there is a need for additional greenfield allocations to meet Edinburgh's challenging housing needs, we recommend that this site is allocated for residential development in CityPlan 2030. It is a logical progression of the EoMT proposals and, in our view, would make even more sense in the context of the Council's consideration of major mixed-use development on the East of Riccarton site and the Hermiston Park proposals being promoted by Murray Estates by separate submission to the MIR. The site forms a small part of the 'North of M8' Assessment Area in the Housing Study. We note from our review of this Assessment, that its findings that are deemed by the Council to direct against development, are not of significant relevance to this relatively small site to the far east. In our view, the site could therefore be developed for housing without any significant harmful impacts. We would also suggest to the Council that there may be the potential to accommodate cemetery and/or allotment uses on land further west in both the 'North of M8' and 'South of M8' Assessment Areas on land controlled by Murray Estates. In our view, such uses could be appropriately accommodated in certain locations, ensuring minimal environmental impact, whilst contributing to the City Choices aspiration to increase the provision of allotments and burial spaces. Murray Estates would welcome further discussion on this, and would be happy to recommend specific sites.
