City of Edinburgh Child Protection Committee – Improvement Plan 2024-25

The Edinburgh Child Protection Committee is the inter-agency strategic partnership, responsible for the design, development, publication, distribution, dissemination, implementation and evaluation of child protection policy and practice across the public, private and wider third sectors in the City of Edinburgh area. Through our local structures and membership, we provide individual and collective leadership and direction for the management of child protection services.

The Committee is made up of senior representatives from across all key areas and partners concerned with the care and protection of children. Guidance issued by the Scottish Government requires every local authority area to have a Child Protection Committee.

Strong links exist between the Committee and the Edinburgh Children's Partnership (the Partnership) through the Edinburgh Children's Services Plan (2020 - 23). Work continues to ensure that this is a developing partnership.

In 2019, the Scottish Government published the document "Protecting Children and Young People: Child Protection Committee and Chief Officer Responsibilities". This sets out the functions of the child protection committee, which are:

- Continuous improvement
- Public information, engagement, and participation
- Strategic planning and connections
- Annual reporting on the work of the CPC.

Based on these core functions, the 2024-25 Edinburgh Child Protection Committee Improvement plan focusses on four key themes which have been agreed as being priority areas in the coming year:

- 1. Leadership and Structure
- 2. Learning Culture and Relationships
- 3. Self-evaluation and Assurance
- 4. Strategic Connection

These themes have emerged through Committee development activities during the first 6 months in post of our first independent Chair and new Lead Officer. The reflect national and local drivers, with relevance across the multi-agency partnership.

The intention is for a one-year plan to enable us to build the right structures and supports to address more ambitious themes in a 3-year strategic plan that would run 2025-28.

Monitoring of this plan will be taken forward by the Child Protection Committee throughout the year.
