

## **Integrated Impact Assessment Statement**

### **Development and Business Services Operating Model**

It has not been possible to implement the Development and Business Services Operating Model as proposed due to the impact of Coronavirus (COVID-19) on service delivery. It is intended to achieve this saving through internal service efficiencies across the Sustainable Development service in 2022/23. It is not anticipated that these efficiencies will lead to positive or negative impacts for people with protected characteristics, people vulnerable of falling into poverty, geographical communities or Council staff
