Monthly cumulative figures for the first half of 2021/22 show a similar pattern to those in 2020/21. November saw a significant increase in approvals by Housing Association partners following confirmation of the increased grant benchmarks by the Scottish Government. There are 25 projects (1,456 approvals) that have been delayed, primarily as a result of the pandemic. Although these projects have slipped they will be progressed in early 2022/23. A large number of approvals were expected to come in Aug/Sept but many Housing Association partners were waiting for the increased grant benchmark levels to be confirmed by Scottish Government, before submitting tenders for approval. These were confirmed at the end of October, as a result, there was an increase of approvals by the end of November. Over 75% of these projects have just slipped into the subsequent year. The Covid-19 pandemic has impacted on build programmes nationally, as construction work was initially halted and then further health and safety measures (such as physical distancing) remained in place until August 2021. Current guidance seeks to minimise workforce transmission of Covid-19 which is having an impact on overall delivery timescales. The loosening of restrictions does however show in the monthly cumulative figures, with completions above the levels of 2020/21.</p>

Domestic kerbside missed bin service requests	Jul to Dec 20 Ave 1,416	Jul to Dec 21 Ave 1,870	1,765	●		<p><i>Monthly figure.</i></p> <p>Waste missed bin service requests fluctuate each month but the 6 month average (Jul to Dec 21) is just above the monthly target, with a peak in July. The increase in reports of missed individual bins in July was caused by staff pressures due to Covid cases/isolation of crews and managing accrued annual leave ahead of the holiday period ending. Target shown is monthly target, full year target for 21/22 is 21,180.</p>
Communal domestic full bin service requests	Jul to Dec 20 Ave 1,635	Jul to Dec 21 Ave 1,757	1,770	●		<p><i>Monthly figure.</i></p> <p>Communal full bin service requests fluctuate each month with a peak in Sep. The 6 month average, at 1,757, is just below target. The increase in people working from home has resulted in additional household waste putting pressure on the service. The peak in September was caused by Covid cases/isolation of crews, managing accrued annual leave ahead of the holiday period ending and a transition between contractors for communal glass collections. The target changes each quarter to reflect the impact of seasonal factors, such as students moving in and out of shared flats, on service demand.</p>
