Subject: Ravelston Park

To Whom it May Concern,

I am writing to register my full support for the purchase of Ravelston Park Pavilion and small area of parkland by the Blackhall Community Trust. The current nursery does outstanding work in a outdated and run down building and a purpose built nursery which can provide more spaces is desperately needed. Blackhall as a community is sorely lacking in community spaces and the proposed provision of such space will add incredible value to the new building.

I am aware there is a highly vocal minority opposed to this project but I sincerely hope that the project will not be derailed by what seems to be a personal grudge.

Yours,

Nyssa Pinkerton
