

## Summer Holiday Food & Childcare Programme 2022

The Scottish Government has again provided local authorities with funding for summer holiday activities. The purpose is to help children and young people connect with each other and have fun. This year the funding supports activities for children aged between 5 – 14 years old. The funding is being used by council services and partner organisations to provide free activity places and healthy snacks for people who are impacted by the cost of living crisis.

The table below gives a brief overview of the activities on offer. Please contact the service or organisation email below to find out more and to book a place.

Name of Programme	Venue / Location	Type of Activity	Age range	Organisation	Contact / Booking
