HNC5 - Method of calculation changed and replaced with HNC5a - "To improve the relevance of this measure, the basis on which it is calculated has changed this year. Previously this measure had been calculated on progress towards the Scottish Housing Quality Standards – SAP ratings which were due to be achieved by 2015. The measure will now be based on progress towards meeting the Energy Efficiency Standard for Social Housing (EESH). The source remains the Scottish Housing Regulator and historic data is available back to 2015/16. "
