

School Healthcare Plan; not requiring medication in school

Dear head teacher

The GP/hospital doctor/nurse has advised that my child's healthcare needs require to be managed as indicated below. I would like to request the cooperation of the school in enabling appropriate care whilst my child is at school.

Pupil's name	Date of birth
Healthcare need	
Help required in school	

Parent/carer's name	
Address	 Home
	 Work
	 Mobile
Signature	Date

I realise that the school is not obliged to undertake healthcare and that any healthcare provided by the school will be carried out on a voluntary basis under the guidance of NHS staff.

I agree to the information being shared with all staff working with my child.
